United States Modern Issues

6062	★★田	1979 \$1 tan, brown orange and yellow, brown inverted, block of four, n.h. and post office fresh, v.f., one of only three known blocks of four of this popular error, significantly undervalued given its rarity. Discovered in 1985, the CIA Invert was the first major inverted stamp in 66 years. The story began when an auctioneer specializing in U.S. error stamps announced the discovery (by a "business in northern Virginia") of 85 inverted 1979 \$1 Rush Lamp stamps. The Bureau of Engraving and Printing launched an internal investigation and found that there were no indications of impropriety by its employees. It was discovered that an on-duty C.I.A. employee had purchased a partial sheet of 95 inverted stamps at a small post office near McLean, Virginia. When the office workers realized what they had, they pooled their money and substituted non-error \$1 Rush Lamp stamps for the inverts. Each of the nine co-workers kept a stamp. The remaining 86 stamps, including one that was damaged, were quietly sold to the auctioneer. The story made headlines across the nation and was featured on every major television network. The CIA launched an ethics investigation and demanded that the co-workers surrender their inverts or face 10 years in prison and a \$10,000 fine for conversion of government property for personal gain. Five employees returned their stamps, one claimed his had been lost, and three people resigned. The CIA donated the recovered inverts to the National Postal Museum, cat. \$68,000.....(1610C)	60,000.00

Harmer, Dalwick and Bojanowicz, with 1983 Diena certificate. This provisional was made by W.C. Campbell, the Secretary of the Postal Department. Stanley Gibbons states that 25 to 30 used examples are known. In 1919, the London "Daily Mail" offered a £10,000 prize for the first non-stop flight over the Atlantic. The 1st plane, known as the Hawker, was forced down in the Ocean about 1,000 miles out. A second plane, the "Martinsyde" Raymor, piloted by Major F.P. Raynham and navigated by Major C.W.F. Morgan, also competed for the Daily Mail's prize. The crew arrived at St. John's on April 10, 1919 and made a valiant effort to assemble their plane in the shortest time possible. The first attempt was made on May 18, 1919. On takeoff the aircraft dipped in soft spot, the landing gear dug in and the aircraft hit the ground and was severely damaged. The navigator, Charles W.F. Morgan, sustained injuries that incapacitated him for a second attempt. The mail was eventually delivered by sea, cat. £30,000.....(SG 142a)	25,000.00

6483	★★	1927 De Pinedo Overprint, 60c black, pos.12, well centered, n.h. and post office fresh, perfectly centered with wide margins all around, pencil signed Bolaffi, Diena, etc., v.f. example of this world-class rarity, with 2020 Philatelic Foundation certificate (this issue was intended for use on airmail flown aboard a plane piloted by Italian aviator Francesco de Pinedo. 300 stamps were overprinted, of which 230 were used on correspondence, 66 presented to De Pinedo and various dignitaries, and 4 damaged and destroyed. It is estimated that only 33 unused examples have survived to the present day. Francesco De Pinedo (1890-1933) was a famous Italian aviator of the time. By 1927, he had flown most of the globe in his double-hulled Savoia-Marchetti seaplane named the "Santa Maria II". In May 1927, De Pinedo was on the last leg of his circumnavigation of the Atlantic. The Newfoundland government asked him to carry a mail bag back to Italy for them. He agreed, and the stamp shown above was quickly issued to publicize the event. He took off from Trepassey, Newfoundland on May 23, 1927. During his flight from Newfoundland to Italy, De Pinedo experienced engine trouble and he was forced to land in the ocean. He and his aircraft were found, and they were towed to the Azores. Following repairs to his aircraft, De Pinedo finally completed his flight, and he arrived in Rome on June 1, 1927), cat. \$100,000.....(C4)	30,000.00

Geneva

6988 (★)	1843 5c black, yellow green, right half of the legendary "Double Geneva", unused without gum, deep color and margins (frame line touched at right), repaired tear at right, fresh and fine appearing example of the right portion of Double Geneva, with clear 1984 von der Weid certificate, also 2019 Jean-Claude Marchand opinion ("repaired tear at top, otherwise in good condition") (Zu.4R, SFr 30,000) (the Double Geneva of 1843 is the third oldest European stamp issue after the 1840 Great Britain and 1843 Zurich. The two stamps in one were printed in black on yellow green paper, showing twin coat of arms, each surrounded by the words "Poste de Geneve 5 C Port local" within a square. The interesting fact about this item is that its half was only used within the city, whereas the whole stamp paid the rate to other towns in the Geneva canton) cat. \$24,750(2L1a)	1,500.00
----------	---	----------

6989 ○	1849 4c black and red Poste Locale, the so-called Vaud (Waadt), a magnificent used example of this very rare stamp, featuring four extra-large margins, with dividing lines on three sides, crisp impressions, neat strike of a red rosette cancel on piece with corresponding Geneva 3 May 50 struck alongside, v.f. appearance, signed Diena, Ernst Stook, also von der Weid, with his 2004 certificate ("en parfait état de conservation et de fraîcheur"), plus 2019 Jean-Claude Marchand opinion stating "the paper is slightly defective in the bottom left corner, but a tear or crease cannot be determined without taking the stamp off piece". The Four Cent Geneva cantonal is one of the key rarities of early Switzerland, with superb examples such as this being incredibly challenging to locate (Zu.9, SFr 25,000) (this 4 centimes "Poste Locale" adhesive was intended for letters within a city, while the 6 centimes "Cantonal Tax" was used for letters abandoned and delivered in the Canton of Zurich. The reason why the stamp is called the "Vaud 4" is attributed to the fact that it was used in Geneva and the district of Nyon in Canton Vaud. The stamp was issued in sheets of 100 but the total number of items that was printed is also unknown. It was made obsolete in a year due to the December 1849 currency law, thus making Vaud 4 really scarce) cat. \$20,750(2L5)	2,500.00
